

OPERATIONAL UPDATE:

Friday, 20 March 2020

In this unprecedented period in our lives; **Altrad Belle** is pro-actively doing all that it can to manage the potential effect that the Covid-19 outbreak could bring to its British manufacturing facilities at its SHEEN factory in Derbyshire UK

Like everybody we are treating the situation extremely seriously and following all the governments guidelines to ensure the safety of our staff; customers and suppliers whilst continuing to function as normal as possible

Our external sales team are now working remotely from home to protect both them and you our customers; as are a selective number of our internal sales team.

Our dedicated carriers are not reporting any significant disruption to deliveries and through contingency planning we currently have minimal disruption to our manufacturing and stock levels

We will continue to stay vigilant as we look to minimise any disruption to our trading partnership; and thank you for your patience and understanding in what is a difficult period for us all

For the latest company updates and developments relating to Covid-19 please check out our website : www.altrad-belle.com

Yours Sincerely,

Ray Neilson
MANAGING DIRECTOR
