

GHB 760 A

Petrol garden shredder

The powerful petrol garden shredder GHB 760 A is the ideal solution for operation in large garden or properties without electric power supply.

inclusive accessories

according to the newest technical safety instructions

CE
EU II

- hardened knives
- powerful petrol engine
- hammer mill system

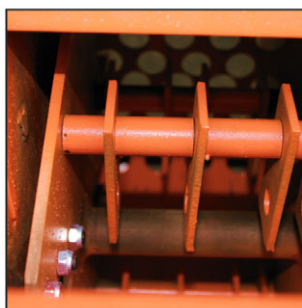

Hopper for branches

Branches up to \varnothing 76 mm are feeded to the hardened knives via the side hopper

Safety cut-out

The cut-out prevents that the engine can be switched on by open device.

Hammer mill system

Bushes, leaves and thin branches up to \varnothing 10 mm are feeded to the hammer mill system via the large hopper. The feeded shredding material is smashed and splitted.

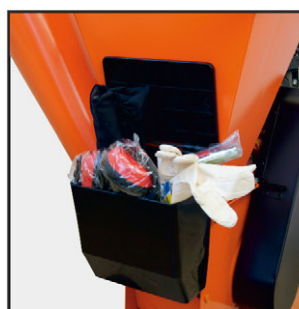

Large wheels

Stable undercarriage with pneumatic tyres provides an easy change of location.

Hardened knives

The two turnable cutting knives provide for an excellent cutting result.

Convenient storage box

The accessories are kept handy.

Effortless chopping and shredding of branches, bushes and garden waste with two separate systems.

Petrol garden shredder GHB 760 A

4-stroke petrol engine	
max. engine power (with max. engine speed)	4,0 kW
