BGA RANGE

SUBMERSIBLE WATER PUMPS

High capacity flexible shaft submersible pump with an output of 72m³/hour.

For draining and removal of water from trenches and building sites without the use of electric power.

BUILDING A SUSTAINABLE FUTURE.

FEATURES & BENEFITS

- A heavy duty and durable pump designed to work in tough site conditions.
- Capable of pumping dirty water even when containing small solids up to 15mm in diameter.
- High output and a flow rate of 72 m³/h.
- Provides the ability to lift high heads of water at excellent flow rates.
- Simple to use; priming not necessary.
- Durable cast steel impellar.
- Strong, 5 metre flexible shaft.
- Two-dog coupling identical to Altrad Belle BGA Pokers which enables compatibility and versatility in utilisation between water removal and concreting work.
- Works off standard poker drive units for maximum versatility.
- Honda & Loncin Petrol or Hatz Diesel power unit options available.

'TWO DOG' DRIVE COUPLING

3" FIREMAN'S COUPLING OPTION

TECHNICAL SPECIFICATIONS

Model

Part No.		165.9.047
Maximum Flow Rate	(m ³ /h)	72
Speed Ratings	(rpm)	2800-3600
Shaft Length	(m)	5
Outlet Size	(mm)	75
Pump Weight	(kg)	6
Pump & Shaft Weight	(kg)	22

Options

165.0.169	3" Lay Flat House
165.0.170	3" Circlip For Hose x 2
OPB/02/DIO	3" Fireman's Coupling

BGA 5M Pump

Model

Part No.		165.9.038
Engine power	(Hp / kW)	4.9 / 3.6
Engine speed	(rpm)	2800
Width	(mm)	420
Height	(mm)	520
Length	(mm)	445
Weight	(kg)	26

Honda GX160 Power Unit

Model

Part No.		165.9.090
Engine power	(Hp / kW)	3.5 / 2.6
Engine speed	(rpm)	2800
Width	(mm)	420
Height	(mm)	520
Length	(mm)	445
Weight	(kg)	24

Loncin H135 Power Unit

Model

Part No.		165.9.034
Engine power	(Hp / kW)	4.6 / 3.4
Engine speed	(rpm)	2800
Width	(mm)	420
Height	(mm)	630
Length	(mm)	500
Weight	(kg)	43

Hatz 1B20 Power Unit
