- Absolute suitable for outside use
- Sophisticated logistic system
- Adjustment to complex undergrounds possible, because of the modular scaffold supporting structure
- Extension-/ Reduction-grid

No.1 for Light Construction Equipment, Scaffolding, Wheelbarrows

www.ALTRAD-Belle.com

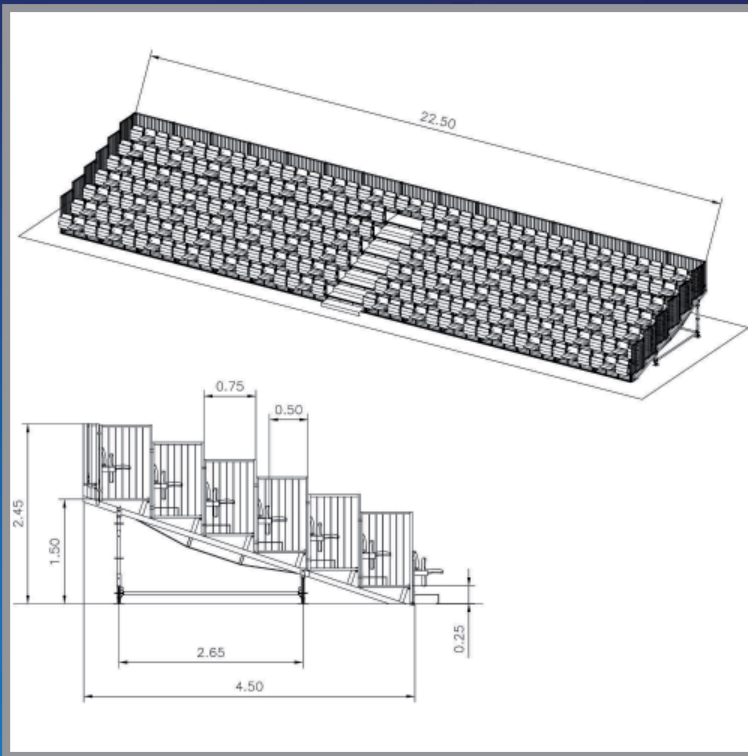

The ALTRAD Plettac Assco Grandstand System can be assembled by a **quick and logical connection method** of a few, modular prefabricated parts. The substructure is consisting of the modular system **plettac contur**, which grants you **flexibility and high loading capacities**. Several technical approvals have been issued by the German Deutsches Institut für Bautechnik (DIBT) for the modular scaffold system.

Please find following an example for an ALTRAD Plettac Assco Grandstand with 297 seats.

Technical Specifications

- **Distance:** seat-seat: 500 mm
- **Distance:** rank-rank 750 mm
- **Vertical height:** rank-rank 250 mm or 375 mm
- **sidewise:** 1,5m – 3 seats
- **backwards:** 3m-4m ranks (maximum 39 ranks)
